THE QUESTION

Why Should Jurix AI Launch in Delhi-NCR First?

Jurix AI has built an AI-native legal research platform designed for Indian lawyers. Bengaluru obvious but wrong. Delhi-NCR: 50k+ lawyers, high TAM density, less competition, better willingness-to-pay, faster path to ₹50k MRR (200 users @ 20% vs 500 @ 10%). Stickier customers, tight community → network effects fast.

Both Markets Are Large — But Delhi-NCR Offers 3x Faster Revenue Growth

> **BENGALURU MARKET**

Advocate Population: ~100k advocates Digital Tool Adoption: 45% (highest in India) TAM (annual spend): $100k \times ₹8k = ₹80$ Crores SAM (Jurixone addressable): $45k \text{ advocates} \times ₹5k \text{ avg} = ₹22.5$ Crores SOM Year 1 (3% capture): ₹67.5 Lakhs revenue

> **Delhi-NCR Market**

Advocate Population: ~300k advocates (3x larger) Digital Tool Adoption: 25% (lower, but massive TAM) TAM (annual spend): $300k \times ₹5.5k = ₹165$ Crores SAM (Jurixone addressable): $75k \text{ advocates} \times ₹3.5k \text{ avg} = ₹26.2$ Crores SOM Year 1 (3% capture): ₹78.6 Lakhs revenue

MARKET SIZE COMPARISON

Bengaluru is Crowded. Delhi-NCR is Underserved.

 <https://www.jurixoneai.com/>

Comparison Table:

Dimension	Bengaluru	Delhi-NCR
SCC Online presence	Dominant, 60%+ penetration	Present but weak (~30%)
CaseMine	Active, growing	Minimal presence
Market density	High (5+ competitors)	Low (1-2 real competitors)

Who converts faster?

Different Cities, Different Customer- Psychology

1

BENGALURU CUSTOMERS

Tech founders, VC-backed firms already using SCC Online. High switching costs. 8–12 week sales cycles, heavy discounting.

2

DELHI-NCR CUSTOMERS

Mid-tier law firms, Supreme Court advocates searching for first solution. Low friction. 3–5 week cycles, premium pricing sticks.

3

WHY THIS MATTERS

Bengaluru = fighting incumbents. Delhi-NCR = creating a market.

Go Delhi-NCR in Q3 2026. Expand Bengaluru in Q4.

- ✓ Delhi-NCR: 3–5 week sales cycles × 50 outreach = 10 conversions by day 90.
Bengaluru: 8–12 week cycles × 50 outreach = 2–3 conversions by day 90.
Result: Delhi-NCR hits ₹50k MRR in 90 days. Bengaluru takes 6+ months.
- ✓ Delhi-NCR has no AI-native competitor. You own the category narrative.
Bengaluru forces you to explain "why not SCC Online?" — exhausting.
Easier to establish thought leadership in a white space.
- ✓ Delhi-NCR: Your ₹3.5k–8k pricing sticks (no incumbent anchoring lower prices)
Bengaluru: Pricing pressure from SCC Online + CaseMine = margin compression
Result: ₹50k MRR from Delhi at higher margins beats ₹50k MRR from Bengaluru
